

### Microbial Genetics (MSc course)

| Session No                | Topic                                                            | Lecturer      | Date & Time              |
|---------------------------|------------------------------------------------------------------|---------------|--------------------------|
| 1                         | Mutations and Mutagens                                           | Dr. Alvandi   | Monday 5/9/97, 8-10 AM   |
| 2                         | Repair                                                           | Dr. Alvandi   | Monday 12/9/97, 8-10 AM  |
| 3                         | Genomics                                                         | Dr. Nomanpour | Monday 19/9/97, 8-10 AM  |
| 4                         | Plasmids (Antibiotic resistance and Pathogenicity determinants ) | Dr. Moradi    | Sunday 25/9/97, 13-15 AM |
| 5                         | Mobile Genetic Elements                                          | Dr. Moradi    | Monday 26/9/97, 8-10 AM  |
| 6                         | Bacteriophages                                                   | Dr. Akya      | Sunday 2/10/97, 13-15 AM |
| 7                         | Restriction Enzymes                                              | Dr. Abiri     | Monday 3/10/97, 8-10 AM  |
| 8                         | Genetic Control                                                  | Dr. Abiri     | Sunday 9/10/97, 13-15 AM |
| <b>Final Exam 1/11/97</b> |                                                                  |               |                          |
