

Advanced Bacterial Systematic: Ph.D
Sunday: 8 - 10

	Instructor	Subject	Date
		Disseminated Infections	
1	Prof. Janbakhsh	Disseminated Infections and infective Endocarditis: A Clinical Overview and Treatment	7/17
2	Dr. Sohrabi	Pseudomonas aeruginosa and Burkholderia	7/24
3	Dr. Sohrabi	Staphylococcus aureus and Coagulase-Negative Staphylococci	8/8
4	Dr. Abiri	Streptococcus pyogenes and The Enterococci	8/15
		Localized Infections	
5	Prof. Janbakhsh	Skin and Soft Tissue Infections: A Clinical Overview and Treatment	8/22
6	Prof. Mohajeri	Propionibacteria and Erysipelothrix rhusiopathiae. S. aureus	8/29
		Anaerobic Infections	
7	Prof. Alvandi	Clostridial Soft Tissue Infections and Clostridium tetani	9/6
8	Prof. Alvandi	Gram Neg Anaerobic Bacteria	9/13
9	Prof. Alvandi	Dental Caries and Bacteriology of Periodontal diseases, Actinomyces	9/20
		Gastrointestinal Infections	
10	Prof. Janbakhsh	Gastrointestinal Infections: Overview and Clinical Presentations. Treatment	9/27
		Toxin-Associated Diseases	
11	Dr. Abiri	Enterotoxin-Producing Staphylococcus aureus, Bacillus cereus Group, Listeria monocytogenes	10/4
12	Prof. Alvandi	Enteric Toxins of Clostridium perfringens, Clostridium botulinum, Clostridium difficile	10/11
13	Dr. Moradi	Vibrio cholera, Aeromonas and Plesiomonas, Vibrio parahaemolyticus and Vibrio vulnificus, Tropheryma whipplei	10/18
14	Dr. Moradi	Diarrhoeagenic Enterobacteriaceae	10/25
15	Dr. Moradi	Salmonella Typhi and Paratyphi A, Non-typhoidal Salmonella AND Yersinia enterocolitica	11/2
16	Prof. Alvandi	Campylobacter, Helicobacter pylori	11/9
