

Mohammed Namiq Amin

Major: Doctor of Pharmacy (Pharm-D)

Place of Birth: Kurdistan Region of Iraq

Interviewer: *Mr. Mohammed Namiq Amin, having dedicated seven years to the study of Pharmacy at KUMS, you have undoubtedly acquired a profound understanding of the university's educational standards. Could you kindly provide your insights regarding the following aspects?*

► **Educational Excellence:** “At Kermanshah University of Medical Sciences (KUMS), the commitment to educational excellence is evident through comprehensive pharmacy programs. The curriculum emphasizes a strong theoretical foundation and practical skills, preparing students for the dynamic field of pharmacy”.

► **Research Opportunities:** “KUMS provides ample research opportunities for pharmacy students to engage in cutting-edge projects. Access to well-equipped laboratories and collaboration with experienced faculty members fosters an environment where students can contribute to advancements in pharmaceutical sciences”.

► **Facilities and Infrastructure:** “The university's modern facilities enhance the learning experience for pharmacy students. From well-stocked libraries to state-of-the-art laboratories, KUMS provides the necessary resources for academic success and in-depth exploration of pharmaceutical concepts”.

► **Clinical Exposure:** “Pharmacy students at KUMS benefit from practical experience through clinical rotations and internships. This hands-on approach allows students to apply theoretical knowledge in real-world healthcare settings, preparing them for a seamless transition into the professional field”.

► **Supportive Community:** “Beyond academics, KUMS cultivates a supportive community for pharmacy students. Networking opportunities, mentorship programs, and extracurricular activities contribute to a holistic educational experience, fostering personal and professional growth throughout the pharmacy journey”.
